H. Zwölfer, Bayreuth

Springer International

Oecologia

Derived from *"Zeitschrift für Morphologie und Ökologie der Tiere"*, *Oecologia* was founded in 1968, volumes (1968–1982), and edited by H. Remmert. As of volume 53 (1982) the journal has been edited by both H. Remmert and E.-D. Schulze. As of volume 81 (1989) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; H. Remmert, Marburg; E.-D. Schulze, Bayreuth. As of volume 83 (1990) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; M. Schaefer, Göttingen; E.-D. Schulze, Bayreuth.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page per copy, plus a basic fee of US $2.00 per article. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0029-8549, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Abe Y: The advantage of attending ants and gall aggregation for the gall wasp *Andricus symbioticus* (Hymenoptera: Cynipidae) 166
Abrams PA → Baird RW
Ackerly DD: Light, leaf age, and leaf nitrogen concentration in a tropical vine 596
Alberts JD → Auerbach M
Allison TD: The influence of deer browsing on the reproductive biology of Canada yew (*Taxus canadensis* marsh.). III. Sex expression 223
Aplet G → Vitousek PM
Aronson J, Kigel J, Shmida A, Klein J: Adaptive phenology of desert and Mediterranean populations of annual plants grown with and without water stress 17
Auerbach M, Alberts JD: Occurrence and performance of the aspen blotch miner, *Phyllonorycter salicifoliella*, on three host-tree species 1

Baird RW, Abrams PA, Dill LM: Possible indirect interactions between transient and resident killer whales: implications for the evolution of foraging specializations in the genus *Orcinus* 125
Ballinger RE → Gillis R
Barbehenn RV: Digestion of uncrushed leaf tissues by leaf-snipping larval Lepidoptera 229
Barrett SCH → Husband BC
Bely AE → Palmer MA
Bengtsson G: Interactions between fungi, bacteria and beech leaves in a stream microcosm 542
Berg KE → Palmer MA
Berger B → Dallinger R
Birkel S → Dallinger R
Boettcher AA → Targett NM
Boon JJ → Niemann GJ
Borland AM → Broadmeadow MSJ
Botts PS, Cowell BC: Feeding electivity of two epiphytic chironomids in a subtropical lake 331
Brødsgaard B → Rasmussen IR
Brett MT: *Chaoborus* and fish-mediated influences on *Daphnia longispina* population structure, dynamics and life history strategies 69
Broadmeadow MSJ, Griffiths H, Maxwell C, Borland AM: The carbon isotope ratio of plant organic material reflects temporal and spatial variations in CO_2 within tropical forest formations in Trinidad 435
Burdon JJ → Jarosz AM
Burkholder JM → Martin TH

Caldwell MM, Dudley LM, Lilieholm B: Soil solution phosphate, root uptake kinetics and nutrient acquisition: implications for a patchy soil environment 305
Castro SA → Jaksić FM
Catling PC → Pech RP
Chapman DF, Robson MJ, Snaydon RW: Physiological integration in the clonal perennial herb *Trifolium repens* L. 338
Chu CC, Coleman JS, Mooney HA: Controls of biomass partitioning between roots and shoots: Atmospheric CO_2 enrichment and the acquisition and allocation of carbon and nitrogen in wild radish 580
Clarke AR → Walter GH
Coen LD → Targett NM
Coleman JS → Chu CC
Conrad KF, Robertson RJ: Intraseasonal effects of clutch manipulation on parental provisioning and residual reproductive value of eastern phoebes (*Sayornis phoebe*) 356
Cowell BC → Botts PS
Cresswell JE, Merritt SZ, Martin MM: The effect of dietary nicotine on the allocation of assimilated food to energy metabolism and growth in fourth-instar larvae of the southern armyworm, *Spodoptera eridania* (Lepidoptera: Noctuidae) 449
Crowder LB → Martin TH

Dallinger R, Berger B, Birkel S: Terrestrial isopods: useful biological indicators of urban metal pollution 32
Dangerfield JM, Hassall M: Phenotypic variation in the breeding phenology of the woodlouse *Armadillidium vulgare* 140
Dewar RC, Watt AD: Predicted changes in the synchrony of larval emergence and budburst under climatic warming 557
Diemer M, Körner CH, Prock S: Leaf life spans in wild perennial herbaceous plants: a survey and attempts at a functional interpretation 10
Dill LM → Baird RW
Dudley LM → Caldwell MM
Dumas CF → Martin TH
Durtsche RD: Feeding time strategies of the fringe-toed lizard, *Uma inornata*, during breeding and non-breeding seasons 85

Eijkel GB → Niemann GJ
Eisenbach J → Fox LR
El Haddi A → Tilman D
English-Loeb GM, Karban R: Consequences of variation in flowering phenology for seed head herbivory and reproductive success in *Erigeron glaucus* (Compositae) 588
Evans JP: The effect of local resource availability and clonal integration on ramet functional morphology in *Hydrocotyle bonariensis* 265

Feinsinger P → Jaksić FM
Fox LR, Eisenbach J: Contrary choices: possible exploitation of enemy-free space by herbivorous insects in cultivated vs. wild crucifers 574
Fox LR, Morrow PA: Eucalypt responses to fertilization and reduced herbivory 214
Frost TM → González MJ

Gehring CA, Whitham TG: Reduced mycorrhizae on *Juniperus monosperma* with mistletoe: the influence of environmental stress and tree gender on a plant parasite and a plant-fungal mutualism 298
Gibson CC, Watkinson AR: The role of the hemiparasitic annual *Rhinanthus minor* in determining grassland community structure 62
Gildner BS, Larson DW: Photosynthetic response to sunflecks in the desiccation-tolerant fern *Polypodium virginianum* 390
Gildner BS, Larson DW: Seasonal changes in photosynthesis in the desiccation-tolerant fern *Polypodium virginianum* 383
Gillis R, Ballinger RE: Reproductive ecology of redchinned lizards (*Sceloporus undulatus erythrocheilus*) in Southcentral Colorado: comparisons with other populations of a wide-ranging species 236
Giurfa M, Núñez JA: Honeybees mark with scent and reject recently visited flowers 113
Goater CP, Ward PI: Negative effects of *Rhabdias bufonis* (Nematoda) on the growth and survival of toads (*Bufo bufo*) 161
González MJ, Frost TM: Food limitation and seasonal population declines of rotifers 560
Gordon IJ → Illius AW
Griffiths H → Broadmeadow MSJ
Gulmon SL: Patterns of seed germination in Californian serpentine grassland species 27

Hamilton SK, Lewis WM, Sippel SJ Jr: Energy sources for aquatic animals in the Orinoco River flood-plain: Evidence from stable isotopes 324
Hansson L: Parental investment related to social systems in microtines 284
Hassall M → Dangerfield JM
Hemminga MA, Soelen J van: The performance of the leaf mining microlepidopteran *Bucculatrix maritima* (Stt.) on the salt marsh halophyte, *Aster tripolium* (L.), exposed to different salinity conditions 422
Henley WJ, Lindley ST, Levavasseur G, Osmond CB, Ramus J: Photosynthetic response of *Ulva rotundata* to light and temperature during emersion on an intertidal sand flat 516
Hieber CS: The role of spider cocoons in controlling desiccation 422
Hjältén J: Plant sex and hare feeding preferences 253
Hoffmeister T: Factors determining the structure and diversity of parasitoid complexes in tephritid fruit flies 288
Hokkanen T → Kouki J
Hunter AF, Lechowicz MJ: Foliage quality changes during canopy development of some northern hardwood trees 316
Husband BC, Barrett SCH: Pollinator visitation in populations of tristylous *Eichhornia paniculata* in northeastern Brazil 365

Illius AW, Gordon IJ: Modelling the nutritional ecology of ungulate herbivores: evolution of body size and competitive interactions 428

Jaksić FM, Jiménez JE, Castro SA, Feinsinger P: Numerical and functional response of predators to a long-term decline in mammalian prey at a semi-arid Neotropical site 90
Jarosz AM, Burdon JJ: Host-pathogen interactions in natural populations of *Linum marginale* and *Melampsora lini*. III. Influence of pathogen epidemics on host survivorship and flower production 53
Jiménez JE → Jaksić FM
Johnson RA: Soil texture as an influence on the distribution of the desert seed-harvester ants *Pogonomyrmex rugosus* and *Messor pergandei* 118
Johnson SG: Parasite-induced parthenogenesis in a freshwater snail: stable, persistent patterns of parasitism 533
Jong TJ de, Waser NM, Price MV, Ring RM: Plant size, geitonogamy and seed set in *Ipomopsis aggregata* 310

Karban R → English-Loeb GM
Karlson RH: Divergent dispersal strategies in the freshwater bryozoan *Plumatella repens:* ramet size effects on statoblast numbers 407
Kerley GIH: Small mammal seed consumption in the Karoo, South Africa: further evidence for divergence in desert biotic processes 471
Kigel J → Aronson J
Klein J → Aronson J
Knight SE: Costs of carnivory in the common bladder-wort, *Utricularia macrorhiza* 348
Körner CH → Diemer M
Korpelainen H: Patterns of resource allocation in male and female plants of *Rumex acetosa* and *R. acetosella* 133
Kouki J, Hokkanen T: Long-term needle litterfall of a Scots pine *Pinus sylvestris* stand: relation to temperature factors 176

Larson DW → Gildner BS
Laverty TM: Plant interactions for pollinator visits: a test of the magnet species effect 502
Lechowicz MJ → Hunter AF
Levavasseur G → Henley WJ
Lewis WM → Hamilton SK
Lilieholm B → Caldwell MM
Lindley ST → Henley WJ
Lockwood JJ → Vitousek PM

Machado JL → Wright SJ
Marschall EA → Savino JF
Martin MM → Cresswell JE
Martin TH, Crowder LB, Dumas CF, Burkholder JM: Indirect effects of fish on macrophytes in Bays Mountain Lake: evidence for a littoral trophic cascade 476
Masuda M, Washitani I: Differentiation of spring emerging and autumn emerging ecotypes in *Galium spurium* L. var. *echinospermon* 42
Maxwell C → Broadmeadow MSJ
Merritt SZ → Cresswell JE
Michener GR: Sexual differences in overwinter torpor patterns of Richardson's ground squirrels in natural hibernacula 397
Miller RF, Rose JA: Growth and carbon allocation of *Agropyron desertorum* following autumn defoliation 482
Mitchell HJ → Thomas MB
Mooney HA → Chu CC
